Art Unit: 3764

Applicant has included claim 48 as an invention which has been elected in Group I of a previous election. The examiner however, notes that claim 48 was a non-elected invention. Please re-elect between the apparatus claims and claim 48 which is a method claim.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 4-47 and 49-51 and 53-60, drawn to apparatus, classified in class 482, subclass 70.
- II. Claim 48, drawn to method, classified in class 482, subclass 148.

The inventions are distinct, each from the other because:

Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case this method is achieved when pedaling any elliptical pedaling machine having pedals.
